

School Leader Shadow Reflection Form

Leader Name: Chris Haeger

Date: 3 / 17 / 25

Leader signature: [Signature]

School: Gubahy HS

Observation Areas: Principal

What I'm observing for today (connected to class work, WI Admin. Standard, conversations with university supervisor)

- Daily Schedule & Priorities
- Admin Meeting (Athletics Director)
- Teacher Evaluation (class observation)

Write down the core actions or language you observed. Be specific!

- Delved into the details w/ athletic director
- Spoke about challenges in 20% budget reduction
- Able to make classroom dynamic observations (student behavior) in addition to teacher actions

➤ Summarize 3 strengths of the leader observed (be specific).

1. Deep Awareness of state and district obligations
2. Friendly dynamic with all coworkers
3. 'knew' the students - said hello and made small talk with students as he walked the hallways

➤ Apply learning to your own leadership. What are you currently struggling with (be specific)?

I've struggled with building connection with other administrators in support of my project. Admins seem to prioritize hierarchy over teamwork.

➤ What key actionable changes will you implement to meet your goals discussed with your supervisors, in class or in your project?

I will discuss with peers how they built strong collaborative team environments

➤ Other Takeaways:

School Visit Reflection Form

Student: Blake Gideon

Date: 3 / 17 / 25

Leader Signature: [Signature]

School: Cudahy HS

Observation Areas: _____

What I'm observing for today (connected to class work, WI Admin. Standard, conversations with university supervisor)

- Challenges of different type of student population
- Classroom Environment
- Student support systems

Write down the core actions or language you observed. Be specific!

- Student conflicts were addressed immediately
- Teachers had common framing for daily lesson plans
- Student Expectations clearly communicated RE: graduation

➤ Summarize 3 strengths of the school observed (be specific).

1. Supervisory / safety - VP and SRO monitored hallways vigilantly
2. Digital record keeping - student records meticulously maintained
3. Collaborative dynamic - Admins felt comfortable casually walking into e/os office to collaborate

➤ Apply learning to your own leadership/school/project. What are you currently struggling with at your school or within your project (be specific)?

Our school also struggles with managing student behavior. It was good seeing a school with a more structural approach to student behavior

➤ What key actionable changes will you implement to meet your goals discussed with your supervisors in class or in your project based upon your school visit?

Reflect on how different student populations may effect my role at new schools
