Session Details

Edward E. Ford Task Force Framework that supports the idea that schools are most effective when they focus their missions on learning, avoid political entanglements that exceed their reach and resources, and foster a climate of intellectual exploration free from political tilt or ideological bias. During the workshop we will provide a brief overview of the Framework and focus on school experiences implementing the framework during the 24-25 academic year. Presenters: John Gulla, E.E.Ford Foundation; John Austin,
