Hey Blake -

Here's what I'm sharing with my classes re: grading policy. I see this as a work in progress, but currently has enough clarity for us and our students to move forward. Let me know if you have any questions, thanks.

Feedback and Assessment:

Your work in the class will be assessed based on the level of proficiency you demonstrate on each of the course standards. Every piece of graded work will have one or more standards associated with it. Those standards will be converted to a point system, with the following grade values:

- ≥ 3.7 A
- ≥ 3.4 A-
- ≥ 3.1 B+
- ≥ 2.8 B
- ≥ 2.5 B-
- ≥ 2.2 C+
- ≥ 1.9 C
- ≥ 1.6 C-
- < 1.6 F

Grades are weighted differently, based on assignment group. This course will have the following assignment groups with the following weights:

- Projects: 50%
- Quizzes/Tests: 35%
- Assignments: 15%

Finally, your behavior and academic habits are incorporated in your grade in the form of an "assignment" on Canvas. The teacher will decide how often to include those assignments (daily, weekly, monthly, etc.). Here are the standards you will see on those assignments, and

- Dev.5 - I can cultivate positive working relationships with my classmates whether working towards a shared goal or giving feedback on individual work.
 - Are you respectful and considerate of others?
 - Are you a good listener and an inclusive collaborator?
- Habit.3 - I can monitor my ability to follow classroom expectations and reflect upon areas for improvement.
 - Are you prepared to work, bringing all necessary materials to class?
 - Are you actively engaged throughout class?
 - Are you making productive use of class time, staying on task and resisting distractions?

- Are you abiding by school and course policies?
- Are you taking responsibility for your own learning and behavior?
